## (Pattern B – for applicants residing overseas)

The entrance examination for the International Management Course will take two Patterns.

Applicants residing in Japan should take the Pattern A examination.

Applicants residing overseas should take the Pattern B examination.

Applicants may not take both examinations in the same (spring or fall) examination period.

## I Admission Policy

The objectives of Business School are to educate students who will be able to pursue principles of management scientifically and work with global perspectives in compliance with international regulations and rules. Also, it educates professionals who will possess a high level of business ethics with the spirit of Kwansei Gakuin's school motto.

International Management Course intends to educate students to become professionals who are able to work in the global business environment. Therefore, our admission seeks highly motivated candidates who possess a basic knowledge of business and will be able to achieve academic goals. It evaluates the candidates based on their ability of being successful in the global setting. All classes are conducted in English, therefore, the candidate's ability of communicating, writing, reading and understanding in English is particularly important and the students are required those skills in graduate study level. Comprehensive English language ability will be accessed in the admissions exam and interviews (recommended level of English is as follows: TOEFL-iBT: 85 or above, TOEFL-ITP: 570 or above, TOEIC: 780 or above, or IELTS: 6.0 or above).

The admission has the Pattern B (Overseas) entrance examination for such candidates as international candidates who are currently studying at a university out of Japan or residing out of Japan; or Japanese candidates who are currently studying abroad. The Pattern B examination is based only on the submitted documents by applicants. The candidates for Pattern B are not required to visit Japan to take onsite examination.

The objective of the Management program is to provide students the career knowledge and skills to develop insights necessary for confronting the managerial challenges of increasingly global and technologically innovative industries. Through case analyses, simulations and interactive discussions we explore how practicing managers face critical decisions in generating new opportunities, and building organizational capabilities required for sustaining competitive advantage.

The Marketing program aims to provide sound theoretical bases and practical skills to students who wish to develop expertise in marketing area. In this program, students are expected to learn a range of decisions in planning (plan), execution (do), and control (see) of marketing strategies. Our curricula reflect fundamental issues of marketing strategies such as understanding of market environment (customers, competitors and collaborators), segmentation, targeting, positioning, the 4Ps (product, place, promotion and pricing) and brand management in the increasingly competitive environment.

The overall objective of the Finance program is to provide students with a solid understanding of finance and accounting allowing the application of various finance models to real world decision-making in a global context. We discuss how financial managers face critical decisions such as which assets the firm should invest in, how to raise the cash to pay for them, and how much cash they pay out as dividends to shareholders. In the classroom, we use case studies mixed with lecture style teaching.

The objective of the Family Business Management program is to train students who plan to succeed their family businesses. Through lectures and interactive case discussions, students learn how they should address typical challenges associated with management of family businesses for continuous growth and prosperity. The program is designed to provide interdisciplinary learning opportunities across management, marketing, as well as finance.

## 3. Procedure for Acquiring Residence Status in Japan (for non-Japanese applicants)

In order to be admitted to the Graduate School of a Japanese university, applicants must apply for a visa at Japanese diplomatic offices (Embassy, Consulate-General, etc.), and obtain the residence status of 'Student' (ryuugaku). To enable applicants to obtain this status, the University will apply at the Japanese immigration authorities for a 'Certificate of Eligibility' on behalf of successful applicants. Once this Certificate has been issued, the University will send it to the applicant, who should then go to the Japanese diplomatic office in his/her county for a visa with the residence status of 'Student.' If a student intends to reside in Japan with a residence status other than that of 'Student', this procedure is unnecessary, but in this case, applicants should inform the IBA office of this fact.

The documents required the applicants to complete the above procedure will be sent to the applicants with the notification of acceptance and 'Information for Successful Applicants'. They should be completed and returned immediately, so that the immigration procedures can be commenced in good time.
